INTRODUCING THE MAGNUM™ SERIES CAMERA ENCLOSURES

Mini Magnum

Designed for both indoor and outdoor use, the new Mini Magnum "Chip Camera Security Housing" provides the perfect combination of convenience, aesthetics and value. Constructed of durable, lightweight Magnum™ 941 polymer plastic, Mini Magnum has all the premium features of the renown Magnum series within a compact, installer-friendly enclosure. Its patented "quick-mount" bracket and hinged cover (which opens 180°) allow easy installation and effortless adjustment. Mini Magnum accommodates a wide range of chip camera and lens combinations. Its state-of-the-art, sleek, modern design complements any surrounding.

Magnum

Setting the standard for aesthetics and value, the environmental Magnum enclosure was one of the first camera housings to be constructed of high impact Magnum™ 941 polymer plastic. Its advanced design and premium features set it apart from the competition. The Magnum offers a patented quick-mount bracket and hinged cover (which opens 180°) for easy installation and adjustment. It accommodates a wide range of camera and lens combinations. The Magnum series offers a selection of heater, blower, and combination package options (see next page).

OPTIONS

INTEGRATED HEATER AND BLOWER PACKAGES

The Mini Magnum and Magnum Enclosures are available with a thermostatically controlled heater. The heating device assists in reducing condensation build-up on the window. Simply choose the wattage/voltage level that meets your camera's requirements. The Magnum Enclosure also offers an optional blower, which provides airflow through the housing to cool equipment.
