

AxIAS 6CWPM and 9CWPM Ceiling or Wall Pedestal Camera Mounts

The 6CWPM and 9CWPM are camera pedestal mounts that can be used in wall, ceiling or deck mount applications. They are constructed of heavy duty 1-1/2" diameter steel tubing welded to a triangle 3/16" thick steel mounting base flange. The ball and socket camera mount head allows the camera to be adjusted to any angle or position (level to 90 degrees, rotated 360 degrees) and comes with Allen wrench tool.

Order Part # and Product Specifications
